NEW TELEPHONE

Company to Have its System in Operation in Two Months.

NEARLY FOUR HUNDRED PHONES

Will be in Use at the Start—Residence Telephones to Cost \$25, and Those in Use as Houses \$35—The Promoters of the Company Say it is a Sure Thing and Will Certainly be in Operation Early in the Summer.

It is now definitely settled that Wheeling is to have competition in the telephone business. The new company, which has the West Virginia rights for the automatic telephone, with which the public is familiar, through the company being recently granted a franchise by the city council, announces that the Wheeling plant will be in operation early in the summer, probably within the ensuing two months. The company is headed by Messrs. J. J. Woods, W. D. Johnson and other well known Wheeling business and professional men, in fact, all of the stock is in the hands of home people.

Yesterday an Intelligencer reporter saw Mr. Elsworth Robinson, the gentleman who has charge of the canvass for the new telephone, and he spoke enthusiastically of the flattering prospects of his company, the incorporated title of which, by the way, is the People's Telephone Company. Already 75 per cent of the stock is taken and the balance will be subscribed in the course of a few days. It is anticipated that the investment will pay a yearly dividend of at least 6 per cent.

The canvass for telephones, says Mr. Robinson, has progressed most encouragingly. The number of subscribers already enrolled for the new service is nearly 400 and the number will ultimately reach the 600 mark, probably many more phones than the People's company anticipated would be demanded by the public.

"Of all the business and professional people whom I have approached," said Mr. Robinson, "only four have refused to take our service. The movement we have started for competition in telephones seems to meet with the hearty approval of the public. Not the least important advantage we have, is the fact that all the money spent for telephones with us will be kept right here in Wheeling—it will not go to Boston and Pittsburgh. And another thing—Wheeling capital and Wheeling labor will build our plant."

"Our telephone, as is well known, operates automatically. There is no 'central' to overhear your conversation, and the expense of operation is so much less than by other systems, that we are able to make the rates low. Our system has been in use in many places and is an unqualified success. The system is in use in Grant county, where there are seventy-five instruments, and it has given the best of satisfaction. We have placed the yearly rate for business phones at \$35 and for residences it will be \$25."

The People's company, added Mr. Robinson, will soon have the right of way through Marshall county, to Moundsville, reaching that place and the intermediate towns of Benwood, McMechen and Glendale, Bellaire, Bridgeport and Martin's Ferry are also to be reached by the new company. A branch line will also be built out the national road to Elm Grove; at the same time serving the several suburban communities. The promoters of the company say that they are before the people on a plain business proposition, claiming to give better and cheaper service, and do not enter any plea of sentiment.

The directors of the company are now receiving estimates for the erection of their plant and expect to have work on it started very soon. Mr. Robinson, the company's representative, is now located at 64 Twelfth street.

NEVER was such high class of baked goods offered in the city as you will constantly find for sale in the Wheeling Bakery's retail store. The Bakery takes great pride in placing before the public the great diversity of their product. You will find an endless variety of crackers from the old army hardtack to the recently perfected matchless cream puff. The wonderful scope in the cake department is scarcely less marked, including everything from the favorite luncheon of our country customers, the ginger bread, to the luxurious diet of those of a higher sphere, the angel's food. A continual display of fine breads and rolls in the show windows tempts the appetite of the most fastidious. In the manufacture of fine breads the Wheeling Bakery is disputing the first honors with the great bakeries of our great cities. Such popular favorites as "Sweet Home," "Quaker," "Jubilee," "Vienna" and "Electric" have never been excelled and may always be had in all their perfect excellence in our retail store. To give our many patrons the best that is possible to produce is the constant ambition of the bakery. For the benefit of the early morning people the store room will be opened on market mornings at 5:30 o'clock, that all may have the opportunity to purchase warm bread and rolls for breakfast.

THE HUB CLOTHIERS AND FURNISHERS.

The New Order of Things

Is making an impression. Everybody is glad that there is one store that eschews the Cheap. Trusting to quality and not price-marks. Out of this policy has grown the better store. Out of your approval of it has grown the greater business. Figures are frail reeds. Lean on them alone and you'll sink in the mire of dissatisfaction. We quote the lowest for worth, always have, always will. Our buying power dictates terms, absorbs opportunity, attracts quality QUALITY—that's the foundation; that's our stock in trade. The prosperity of the present throws its strong light down the avenues of time, revealing a future of greater success. We'll keep on as we're growing—we're on the right track.

Men's Suits.

Where to begin is thoughtful food. Where does quality begin? That's our starting point. It's \$10 most everywhere—so it's \$8 with us—all wool fabrics—careful making and perfect fitting. \$10 and \$10.98—we are selling lots of these \$10 and \$10.98 Suits this season. They must be exceptional values. There are thirty-five styles to be suited from. The work in these suits is not put into the \$15 grade even by the average manufacturer, but he doesn't care—we do. We could rest on the laurels in our \$15 grade and still be leaders. There's \$20 worth in every suit in it. We were ploughing for opportunity and struck a lead—found we could do better than we thought we could—kept on till here we are—\$15 for the every-where else \$20. Judge when you see them.

Boys' Clothing.

Anything good enough for a boy. Will you take that attitude towards your boy and so cut him off from one of the manliest of virtues—personal pride, not conceit? If honest and fine conversation is good for him, why not nice, tasty and honest clothes? Does he not at his young and eager age absorb the character of the surroundings more than he will ever again in this life? Shall we surround him with honest and stylish clothes?—we will help you by selling good clothes cheaper than anybody else—any style, any size, any price—

\$1.50 TO \$15.
